**Leonard Woolsey Bacon : A History of American Christianity** before purchasing it in order to gauge whether or not it would be worth my time, and all praised A History of American Christianity:

0 of 0 people found the following review helpful. It is difficult but not impossible to read. By C. Michael Collier This book does chronicle the advance of Christianity in America. It offers an understanding of American history through the rubric of religious liberty. It is written in Nineteenth century prose. And is therefore very tedious. It is an academic work where the reader must have an advanced ability in academic reading. I would not suggest it for today's student. 2 of 2 people found the following review helpful. See the future written in the past! By Linda T. Dyess This book will truly enlighten you as to the difference between christianity as a religion and christianity as following Christ, and the way in which these divergent tenets helped to shape a young nation. A real eye-opener, this was a difficult book to get into, but I found it to be well-researched and felt that the author was very knowledgeable and passionate about his

subject. Perhaps it was a harder read due to the time in which it was written (late 1800's). It was probably the best-researched book I have read in awhile and was spot-on in it's analysis. Worthwhile read to serious students of bible and religion history. 0 of 0 people found the following review helpful. Great book. #14463#By MariaFree download to my kindle, you can't beat that. Great book.#14463#

This book was originally published prior to 1923, and represents a reproduction of an important historical work, maintaining the same format as the original work. While some publishers have opted to apply OCR (optical character recognition) technology to the process, we believe this leads to sub-optimal results (frequent typographical errors, strange characters and confusing formatting) and does not adequately preserve the historical character of the original artifact. We believe this work is culturally important in its original archival form. While we strive to adequately clean and digitally enhance the original work, there are occasionally instances where imperfections such as blurred or missing pages, poor pictures or errant marks may have been introduced due to either the quality of the original work or the scanning process itself. Despite these occasional imperfections, we have brought it back into print as part of our ongoing global book preservation commitment, providing customers with access to the best possible historical reprints. We appreciate your understanding of these occasional imperfections, and sincerely hope you enjoy seeing the book in a format as close as possible to that intended by the original publisher.

About the Author Leonard Woolsey Bacon was an American clergyman, born in New Haven, Connecticut. He was a social commentator and a prolific author on religious, social, and historical matters. (Wikipedia)
