This family went through Hell and the punishment for the drunk driver was appalling! This story needs to be told in every driver's ed class. I'll be donating my copy after it makes the rounds in my family. I have met Lisa and can tell you she is an inspiration and a wonderful person! I hope to meet her children one day, and through her story I expect them to be awesome and inspirational as well. Thank you all for your willingness to share such a horrible tragedy. Thank you Lisa for proving once again that a mother's love for her

children can work miracles! 2 of 2 people found the following review helpful. Truly an amazing book. By Becky Lisa is such an inspiring mother. To be able to handle all the curve balls life has given her, she still finds to be positive in every situation. This life story is an eye opener for anyone who uses or abuses drugs and alcohol, it lets you know what you can do to someone's family in an instant. Thank you Lisa for sharing your life story with us! If it changes at least one person's decision about drinking and driving, you have saved another family so thank you! 1 of 1 people found the following review helpful. Amazing By Jeanne This is such an inspiring story. The love and courage that the whole family shared was remarkable. I think this should be a mandatory read for all high school students. I also think that states should look into making the drunk driver be responsible for half the cost of the medical expenses. God bless Lisa and her beautiful family. Thank You for sharing the last 16 years with us. I will never complain about my life again.

This is the story of an incredible and inspirational journey of a mother dedicated to her three children. She was determined to survive a tragic event through faith, hope, and courage. The mother was severely injured, and her devoted husband and father of her children was killed instantly. She watched her son fight for every breath he took to survive. Her daughters, only three and five years old, were traumatized. The young girls screamed in pain and wondered where their father and brother were. The mother buried her husband, stood by strongly as her son had surgery after surgery, and went to court to see that the man who changed their lives forever was served with justice. She tried to stay strong and focused for her children. She wasn't able to grieve the loss of her husband. She made endless medical decisions and stayed with her son in the hospital for many months. She waited to see progress from her comatose son and saw her little girls only on weekends. The girls trying to adjust emotionally and physically to their new life. This book will make someone think about his or her choices. Making the wrong choice, like doing drugs or driving intoxicated, can have a lasting impact on your life and the lives of others. Someone else's choices caused this mother's family to go on a journey that no one should ever have to endure.
