Ben Shu Zu : A Practical Guide for Interpreting The Securities Law of the Peoples Republic (Chinese Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised A Practical Guide for Interpreting The Securities Law of the Peoples Republic (Chinese Edition):

Complied by people who have participated in the legislation of The Securities Law of the Peoples Republic, this book

thoroughly explains the legislation background, legislative purpose, the clockwork connotation, application in practice of securities laws item by item. In order to promote readers deeper understanding of the legislative intent, this book encloses the legislation documents of National Peoples Congress after the law explanation, and also the important relevant judicial interpretations in recent years.
