Colleen Medill : Acing Property (Acing Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised Acing Property (Acing Series):

This study aid uses outline-like checklists to lead students through the analytical steps necessary to evaluate and resolve property issues. Each chapter begins with a review and explanation of the important rules, concepts, and principles that govern a particular area of property law. The review material is then synthesized into a checklist. Each

chapter concludes with practice problems and solutions that illustrate how students can use the checklist to analyze property issues when writing their exams. The systematic analytical approach represented by the checklists in this book is unique among study aids.
