Ernest Gellhorn, Ronald Levin : Administrative Law and Process in a Nutshell, 5th (Nutshells) before purchasing it in order to gage whether or not it would be worth my time, and all praised Administrative Law and Process in a Nutshell, 5th (Nutshells):

1 of 1 people found the following review helpful. I didn't find it as useful as the Nut Shell series on other subjectsBy

BirdmanThe book was adequate. I found other books on the subject more helpful. I didn't find it as useful as the Nut Shell series on other subjects. Probably an issue of personal preference.0 of 0 people found the following review helpful. Admin Law and ProcessBy KristenI needed this book for an Admin Law class in college. It arrived in very good condition and it is such a convenient size. It is a very small book and easy to carry around. The only down side is that the font size is so tiny that even with my glasses on I'm straining... But it shipped to me quickly and I can't even tell that it was used so I can't complain.1 of 1 people found the following review helpful. Great for LegRegBy LaurenI bought this as a LegReg supplement for the admin portion of the course. The book provides great, short case summaries and clearly outlines the connection and evolution between landmark cases. Definitely a terrific addition to class materials.

Governmental agencies have grown significantly in the last half-century, as has the importance of governing administrative law. This volume reviews general principles, policy considerations, and the methods of analysis of federal, state, and local agency procedures. Chapters discuss authority delegation; political controls over agency action; scope of judicial review; acquiring and disclosing information; informal administrative processes; procedural due process; formal adjudications; procedural shortcuts; rules and rulemaking; and obtaining judicial review.
