**William Funk, Sidney Shapiro, Russell Weaver : Administrative Procedure and Practice (American Casebook Series)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Administrative Procedure and Practice (American Casebook Series):

0 of 0 people found the following review helpful. I dislike the setup of this bookBy MarilynI dislike the setup of this book. I dont like it revolving around problems. Also i bought this book new and the binding is breaking and its starting to fall apart after only 1 semester of regular use (never dropped it or abused it in any way). Far too much money for a crappy book0 of 0 people found the following review helpful. GoodBy Jane G.It was required book for my class. I feel that it's more practical book than some other ones because it has a lot of real problems based on the cases, which helps to understand how admin law works in practice.0 of 0 people found the following review helpful. Administrative

LawBy James D. WeinbergThis is an excellent Administrative Law book. I can follow along with my law professor very easily. The cases and the procedural and substantive law blend very well with this law book.

This popular casebook has a unique approach to focusing on real problems and real administrative practice. The latest Supreme Court cases and the hottest issues are discussed. The new edition retains its distinctive characteristics of using problems as the primary pedagogical tool, including problems that do not involve courts; raising the ethical issues peculiar to government lawyers; and orienting the course around administrative law practice, rather than theory. While theory is not ignored, it arises out of the crucible of reality-based problems, providing a basis for students to appreciate the theory.
