**Fred Hopengarten : Antenna Zoning: Broadcast, Cellular Mobile Radio, Wireless Internet- Laws, Permits Leases** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Antenna Zoning: Broadcast, Cellular Mobile Radio, Wireless Internet- Laws, Permits Leases:

If you are building, adding to, modifying, or even upgrading a commercial antenna system, and most especially if you hope to erect a new tower, then zoning laws apply to you. Antenna Zoning enables you to successfully navigate structure regulations, permitting, and even lease negotiations. Whether you are involved with broadcast radio or television, cellular telephone, paging, wireless internet service, or other telecommunications, this book is a must-have

before you begin work on the project. Author Fred Hopengarten is a specialized communications lawyer with extensive experience in antenna and tower regulation, and has been involved in many high-profile zoning cases. His first-hand experience comes to you in this book with lessons learned, case studies, examples, and material you can use presented in an easy-to-understand manner.

".a valuable addition to your broadcast management bookshelf, dense with useful information and supporting materials...If you are active in tower projects, and particularly if you are new to zoning, this is well worth the investment. The book and CD-ROM represent hundreds of hours' worth of legal and tower expertise that you're getting for maybe the cost of 30 minutes of a lawyer's or consultant's time." -- Paul J. McClane, Editor, Radio World About the Author Since 1990, Fred Hopengarten has been a communications lawyer (practicing mostly in the field of antennas and towers) and a consultant to venture capital firms on communications investments. He has handled hard questions in over 250 tower matters, including a case pertaining to one of the largest mountain top antenna farms in the United States. He is also an industry speaker for organizations such as the Electronics Industries Association, the National Association of Broadcasters, the Society of Broadcast Engineers, and the Satellite Communications Users' Conference. Mr. Hopengarten's published works include: zoning articles for Communications-Engineering Digest, ComputerWorld, Cable Television Business, CableVision, Cable Marketing, Broadcasting and in 2001, the American Radio Relay League published his book Antenna Zoning for the Radio Amateur. He is a graduate of Colby College, Boston College Law School, and Harvard Business School. As you might expect, his website is [www.antennazoning.com](http://www.antennazoning.com).
