**Kristina Maria Siig : Arbitration Agreements: In a Transport Law Perspective** before purchasing it in order to gage whether or not it would be worth my time, and all praised Arbitration Agreements: In a Transport Law Perspective:

This book contains a comparative study of the rules governing the formation of arbitration agreements under Danish, English and Norwegian law. The relevant domestic legislation and international treaties, such as the New York

Convention 1958, are considered in detail. The book deals with general rules of arbitration and contract law as well as distinct transport law rules.

About the Author Kristina Maria Siig, cand. jur., is a former research fellow of the Scandinavian Institute of Maritime Law in Oslo, Norway, and is presently employed with the law firm Gorrissen Federspiel Kierkegaard, Aarhus, Denmark. The book is her doctoral thesis, and has been accepted for defence to the degree of Doctor Juris at the Faculty of Law at the University of Oslo, Norway.
