Struyk : ASSESSING HOUSING NEEDS AND POLICY ALTER (Urban Institute Reports 88-4) before purchasing it in order to gage whether or not it would be worth my time, and all praised ASSESSING HOUSING NEEDS AND POLICY ALTER (Urban Institute Reports 88-4):

This monograph describes a model for determining housing needs in developing countries. It discusses applications of the model in fourteen countries and provides guidelines for use by government, shelter donor organizations, and others in the field. The model is a useful tool in improving policy analysis, and is now being applied to housing markets within the United States.
