Herbert Hovenkamp : Black Letter Outline on Antitrust (Black Letter Outlines) before purchasing it in order to gage whether or not it would be worth my time, and all praised Black Letter Outline on Antitrust (Black Letter Outlines):

0 of 0 people found the following review helpful. Provided great supplemental explanationsBy JonesTook antitrust at law school last fall. It was a lot of reading, and this outline book really proved helpful when I got a little lost. Explanations were clear and logical, and the layout was organic for the topic.Highly recommended.4 of 5 people found the following review helpful. Having trouble in your antitrust course? Buy this book!!By Jeffrey TidwellI was a good law student, but had big trouble in my antitrust course trying to grasp some of the basic concepts. This book helped me immensely, but is not a substitute for reading cases and struggling to understand what's going on.This book will give you the black-letter law you can use as well as helpful explanations of the leading cases.1 of 2 people found the following review helpful. UselessBy ddddddAfter a few weeks owning this book I must consider that it is really

useless for me. I bought this book expecting supporting material for my LL.M.-antitrust-class. This book is maybe a good resource for someone who wants an introduction into antitrust laws but leaves you helpless if you need some structures to deal with antitrust issues in practice (or even from a practical approach like in an LL.M.-class).

Sweeping yet succinct, the Fourth Edition of this Black Letter surveys the entire field of federal antitrust law, including monopolization and attempt to monopolize; cartels and joint ventures, horizontal, vertical, and potential competition mergers; all vertical restraints, including resale price maintenance and nonprice restraints, exclusive dealing, and tying. Completely updated with all Supreme Court and significant lower court decisions through 2004, Black Letter Outline on Antitrust also includes expanded practice exam questions and answers.
