This casebook continues its traditional approach to the teaching of property law. The new edition features new cases

inserted into almost every chapter of the book, with appropriately updated notes and comments. The opening chapter includes a section of cases designed to hone a student's skill in close case analysis. In its entirety, the book introduces students to a broad spectrum of material traditionally covered in a first-year property course. A voluminous teachers manual accompanies the book, with briefs of every principal case and extensive notes designed to aid the teacher in advancing classroom discussion on nearly every note in the casebook. For the first time, the teachers manual includes additional problems and other materials designed to develop professional skills.
