The only dig that I have is that it skips around a bit, not always following a logical flow of information where one piece of knowledge is built on previously introduced content. I love how the subject material is presented and then followed by numerous examples of the concepts in court cases. Great business law text.0 of 0 people found the following review helpful. Three StarsBy Ryan O'Dowdvery easy to read and there are a lot of good cases that display the critical learning points.0 of 0 people found the following review helpful. Five StarsBy great game, helps pass the timegreat read

BUSINESS LAW: TEXT CASES--COMMERCIAL LAW FOR ACCOUNTANTS is an adaptation of the market-leading Clarkson/Miller/Cross textbook. This textbook is suited for the second course in a business law series ("commercial law"), often a requirement for accounting majors. It covers topics students will see on the CPA exam and delivers an ideal blend of classic "black letter law" and contemporary cases. The text's strong student orientation makes the law accessible, interesting, and relevant with cases that represent the latest developments.
