about corporate and government corruption at the highest level, involving two presidents of the United States. The main character is stockbroker Charles R Schwab who in order to conceal what appeared to be insider-trading activities regarding Micron and Hynix corporations, became obsessed and engaged in criminal activities against the author for years. Because of his wealth and fame, Schwab had to be protected from our system of justice. So he conspired with the Bush and Obama to obstruct justice (from book title) and in the process abused the authors civil rights. The author has done an excellent job of documenting Schwab, Bush, and Obamas crimes against him for many years. The most likely reason for protecting Schwab and keeping this story away from the media was to prevent the collapse of Charles Schwab Corporation and Wall Street. You can find many articles and websites regarding this story on the Internet by searching for the authors name. 4 of 5 people found the following review helpful. A MUST READ! for anyone suspicious of governmental/business collusion at the highest level. By Matowechea A well-written book in which Mr. Pierce convincingly develops a story of romance and intrigue related to one of America's top stock-brokerage figures (Chas. Schwab) and how Schwab's influence at the highest levels of the U.S. government has allowed Schwab to avoid being brought to justice. Mr. Pierce's tale is filled with actual documentation by him of his dozens of letters of appeal (the book contains actual copies of Pierce's letters to: Obama, Holder, Bush, Clinton, Pelosi, Reid, and various members of both the House and Senate), all of which have been ignored and gone unanswered. Any reader will be well-convinced of the gross injustices experienced by Mr. Pierce; his book clearly demonstrates how ordinary citizens CANNOT count on any co-operation from our national political leaders when personal problems arise. And, as one reads this excellent true story, Mr. Pierce clearly "criminally-indites" Chas. Schwab for Schwab's role in reporting a "bomb-hoax" in an attempt to silence Pierce and have him jailed. Any skepticism of Pierce's tale has to be completely erased - IF Schwab fails to take legal action against Pierce for Pierce's gross defamation of Schwab's character. As the book ends, I am convinced that we have not heard the end of THIS STORY. HIGHLY RECOMMENDED! 1 of 4 people found the following review helpful. A slanderous work of fiction By DustyMead This book is a work of fiction, invented stories of the author who suffers from serious mental delusions that require medical care. This can be verified by researching the false "facts" presented and by interviewing those in the book who have been slandered.

This is the story about a romance gone bad and how the obsessed founder of Charles Schwab Corporation committed multiple crimes. It is also about how Presidents Bush Obama protected Charles Schwab from our system of justice in order to prevent the collapse of Charles Schwab Corporation.
