Kathryn Bernhardt, Philip C. C. Huang : Civil Law in Qing and Republican China (Law, Society, and Culture in China) before purchasing it in order to gage whether or not it would be worth my time, and all praised Civil Law in Qing and Republican China (Law, Society, and Culture in China):

This pioneering volume shows that contrary to previous scholarly understanding, the courts in Qing (1644-1911) and Republican (1911-1949) China dealt extensively with civil matters such as land rights, debt, marriage, and inheritance; and, moreover, did so in a consistent and predictable way. Drawing on records of hundreds of cases from local archives in several parts of China, it considers such questions as the relation between codified law and legal practice, the role of legal and paralegal personnel, and the continuity in civil law between Qing and Republican China.
