Vicki Jackson, Mark Tushnet : Comparative Constitutional Law (University Casebook Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised Comparative Constitutional Law (University Casebook Series):

0 of 0 people found the following review helpful. No problem. Exactly what I needed, and delivered ...By James T Noles No problem. Exactly what I needed, and delivered in an incredibly short time. 0 of 0 people found the following review helpful. Five Stars By Customer it was excellent. 2 of 2 people found the following review helpful. Solid Text, Easy to get lost in its 1900 pages (which is good and bad) By ThinkBeforeReviewing This is a solid text with in-depth coverage of many topics. My main complaints would be that it has too much on introductory or abstract considerations before getting to concrete details of different countries (but you could always skip most of the first 500 pages). It is

nicely updated and has a detailed section on social welfare policy at the end, so if you want that, you probably won't find it in similar texts. However, the overall length (more than 1900 pages) makes it painful to carry around and doubtless adds to the book's cost (for some reason it is almost as expensive to rent as to buy on , as I write this review).

The third edition updates its predecessor by including material on important recent developments. In addition to general updating on matters such as gender equality, federalism and affirmative action it expands the treatment of dialogic forms of judicial review. The treatment of constitution-making has been expanded to include discussions of popular participation and of the possibility that constitutional amendments might be held unconstitutional. The book continues to have a substantial discussion of the treatment of emergencies in the worlds constitutional systems. The authors also reorganized, updated and expanded: The chapters on courts and constitutionalism. Materials on social and economic rights in the last chapter. The discussion of freedom of expression.
