**Kathleen Sullivan, Noah Feldman : Constitutional Law (University Casebook Series)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Constitutional Law (University Casebook Series):

The Nineteenth Edition is an updated version of this classic casebook, adding new materials on the Supreme Court's most recent decisions on federal power, free speech, equal protection and religious freedom to its existing comprehensive coverage of separation of powers, federalism, civil rights and civil liberties. This casebook provides a unique combination of clearly structured and lawyerly coverage of the cases with rich historical, theoretical, and

philosophical materials that illuminate the development of our constitutional law. In the 19th edition, you will find the latest decisions on gay marriage, street signs and confederate flags, campaign contribution limits, congressional power over voting rights, and religious exemptions from health care mandates, among many others. The note materials and questions in the casebook make it easy to structure classes and promote lively discussion. And comparative examples from the constitutional law of other nations are provided throughout.
