Dykema Gossett PLLC : Consumer Financial Services Answer Book 2012-13 before purchasing it in order to gage whether or not it would be worth my time, and all praised Consumer Financial Services Answer Book 2012-13:

The Consumer Financial Protection Act of 2010 (CFPA), Title X of the Dodd-Frank Act, made major changes in how

consumer financial services are regulated, and many of these important changes are now in effect. The Consumer Financial Services Answer Book 2012-13 describes in concise detail the new regulatory structure and requirements. This new publication describes: updated requirements under such federal statutes as the Truth in Lending Act, the Fair Credit Reporting Act, the Real Estate Settlement Procedures Act, and many others; the regulatory authority, and the limits on that authority, of the newly created federal Bureau of Consumer Financial Protection, as well as the changed authority of existing financial services regulators; the current federal requirements for mortgage loan servicing, foreclosure and eviction; the changes to the federal preemption, which require specific findings before preemption may be invoked. The Consumer Financial Services Answer Book 2012-13 helps the practitioner, through an easy question and answer format, understand the revised regulations in such areas as: the secondary loan market, including securitization and assignee liability; Mortgage loan servicing; Automotive financing; Privacy and identity theft. In addition, the Consumer Financial Services Answer Book 2012-13 provides practical insight on litigation practices in this area, including special coverage on e-filing and document retention requirements as well as expert, practical insights into consumer financial class actions and other issues of emerging concern.
