Designed for use in the growing Corporate Finance class, this casebook features a strong theoretical framework with strong coverage of MA, bankruptcy, finance, and valuation. The valuation unit covers math from a lawyer s perspective, focusing on the intuitions behind the valuation techniques in a way that will facilitate interaction with

bankers and accountants in practice. Features: The author, Stephen J. Lubben, is an internationally recognized expert in the field of corporate bankruptcy, financial distress and debt Mathematically sophisticated but accessible, focusing the quantitative tools on motivating and understanding the business and concepts Includes and refers extensively to deal documents throughout to establish a theme of the actual transactions to compare to the lines of cases describing how deals go bad Practical, transactional approach to corporate finance Organized around four basic units: valuation, finance, mergers and acquisitions, and financial distress
