Charles Doyle : Cybercrime: An Overview of the Federal Computer Fraud and Abuse Statute and Related Federal Criminal Laws before purchasing it in order to gage whether or not it would be worth my time, and all praised Cybercrime: An Overview of the Federal Computer Fraud and Abuse Statute and Related Federal Criminal Laws:

0 of 0 people found the following review helpful. As reviewed by Deneale's Book BuzzBy Deneale's Book BuzzThank you this helped a great deal with my homework in College!

The federal computer fraud and abuse statute, 18 U.S.C. 1030, outlaws conduct that victimizes computer systems. It is a cyber security law. It protects federal computers, bank computers, and computers connected to the Internet. It shields them from trespassing, threats, damage, espionage, and from being corruptly used as instruments of fraud. It is not a comprehensive provision, but instead it fills cracks and gaps in the protection afforded by other federal criminal laws. This is a brief sketch of Section 1030 and some of its federal statutory companions, including the amendments found in the Identity Theft Enforcement and Restitution Act, P.L. 110-326, 122 Stat. 3560 (2008) (H.R. 5938 (110th Cong.)).
