following review helpful. no problemsBy bsotenThe class was canceled so the seller refunded my money quickly and without issue. Thanks again dude!With that said, the book is very outdated. Hopefully your teacher won't choose it for your class. If they do, it's a very short book, like 7 chapters. One could easily read it in a matter of hours or days.0 of 1 people found the following review helpful. Printed on tissue thin paperBy R. CampbellI bought this book for a course and while turning the pages ripped several. The quality of this \$60 book is not worth the money. I have seen thicker toilet paper. I was not impressed. The author should find another publisher who won't rip him off.

The United States government is reorganizing to increase domestic security. How will these changes impact the American criminal justice system? **DEFENDING THE HOMELAND: DOMESTIC INTELLIGENCE, LAW ENFORCEMENT, AND SECURITY** is the only book that illustrates up-to-the minute information on how our criminal justice system has changed since 9/11. Written by an expert on academic leave to provide training for the Department of Defense, White provides an insider's look at issues related to restructuring of federal law enforcement and recent policy challenges. The book discusses the problem of bureaucracy, interaction between the law enforcement and intelligence communities, civil liberties, and theories of war and police work. From a practical perspective, the book examines offensive and defensive strategies. The book gives an introduction to violent international religious terrorism and an overview of domestic terrorist problems still facing law enforcement.

"I've only had this book for little over a week and I'm simply astounded at the simplicity and truthfulness of the contents. The author has written about issues facing law enforcement on information and intelligence sharing, what works, what doesn't. I have just made it a required text for my fall classes. His one statement brings the focus of the book to heart..."Despite the police fetish for secrecy, the reasons for not sharing crashed into the World Trade Center on September 11'."About the AuthorJonathan R. White is professor of interdisciplinary studies in the Frederik Meijer Honors College of Grand Valley State University. The founding director of GVSU's School of Criminal Justice, Dr. White was promoted to dean of Social Sciences and served there until he was summoned to the Bureau of Justice Assistance to direct the State and Local Anti-Terrorism Training (SLATT) program after the attacks of 9-11. He conducted counterterrorism training for law enforcement and military forces in Europe, Central Asia, the Middle East, and throughout the United States. A recognized expert on religious terrorism, Dr. White currently teaches classes on national security, intelligence analysis, and counterterrorism in the Meijer Honors College.
